Students are admitted to UCSC with a "proposed major" in most cases, and later petition to officially declare the major. Admission to UCSC does not guarantee acceptance into a particular major. Junior transfer students must be officially declared in a major by the deadline in their second quarter of enrollment.

| Major: BIOLOGY, B.S. | Transfer students who indicated this major on their UCSC application have been screened against the major qualification criteria and will be able to declare the major. If you are hoping to pursue this major and did not list it on your UCSC application, please contact the adviser immediately.
Meet with a biology advisor to discuss their academic plan and transfer course work.

BIOL 100: Biochemistry, or BIOL 105: Genetics
PHYS 6A/L: Physics with Lab
This plan is based on completion of all recommended transfer course work.

Please check the Enrollment Section of our web site for updated information about enrollment and wait list availability: [http://undergrad.pbsci.ucsc.edu/enrollment/index.html](http://undergrad.pbsci.ucsc.edu/enrollment/index.html)

Critical and logical thought, complex problem solving using scientific rules and methods, deductive and inductive reasoning.

Skills important for success in this major:
