

# Academic Course Planner

# \*What is the Course Planner?

- \*The online planner is a tool to help map out required courses.
- \*It is an electronic record of requirements that empowers students to plan and monitor progress toward their degree requirements.
- \*Only students can edit the information in their own planners. (Advisers cannot make changes on their behalf.)
- \*From My Student Center click on “Plan” link under Academics. This will take you to the “My Planner” page.

# \* Benefits

- \* Paperless!
- \* Plans don't get lost
- \* Accessible from anywhere with internet access
- \* Students can enroll from planner
- \* Can check in “Request Advisement Report: Advisement Planner Report” to see if plan satisfies all program requirements
- \* Future: determine student interest in classes for planning purposes

# \* Limitations

- \* Any class from the catalog can be added to a planner for any future quarters, which may include courses that are no longer being taught.
- \* Students will not receive an error message if a class has been added to a quarter in which it is not offered, nor will they be alerted if they will not meet the prerequisites for the course.
- \* Students will not be able to include placeholders for electives unless they know the exact course they want to take.

# \* Implementation

- \* Ask students to update/add plan to their planner whenever a plan is created or changed.
- \* Students are required to add major academic plan to their planner as a part of the Declaration of Major process.
