UNIVERSITY OF CALIFORNIA, SANTA CRUZ
NEW STUDENT MAJOR ADVISING SUMMARY FOR 2017-2018 TRANSFER STUDENTS

Students are admitted to UCSC with a "proposed major" in most cases, and later petition to officially declare the major. Admission to UCSC does not guarantee acceptance into a particular major. Junior transfer students must be officially declared in a major by the deadline in their second quarter of enrollment.

**Major:**

**PLANT SCIENCES, B.S.**

Transfer students who indicated this major on their UCSC application have been screened against the major qualification criteria and will be able to declare the major. If you are hoping to pursue this major and did not list it on your UCSC application, please contact the adviser immediately.

Meet with an Ecology & Evolutionary Biology undergraduate advisor to discuss their academic plan and transfer course work.

- BIOL 105: *Genetics*, and
- BIOE upper division elective

*This plan is based on completion of all recommended transfer preparation course work.*

If unable to enroll in courses listed above:

Contact an Ecology and Evolutionary Biology undergraduate adviser.

Skills important for success in this major:

Critical and logical thought, complex problem solving using scientific rules and methods, deductive and inductive reasoning.
